Website Planning Document
Linda Saysithideth
4/19/2021

For this website, I plan to create a professional website to share on my resume and showcase to employers when applying for a job. I want it to be easy to navigate and see my past experience a long with my past projects and have a way to contact me. This is supplementary to my resume, where employers can deep-dive and interact with my past projects as well.

Design
- Separate pages for
  - About
  - Experience
  - Projects
  - Content
- Landing page with possible project image carousel.
